

M. Shakif Rabbani

Software Engineer

Software Engineer with a BS in Software Engineering (CGPA 3.54) and hands-on experience shipping full-stack products for real clients. Built five business systems across web, mobile and desktop in six months, including appointment booking, point of sale and restaurant management. Comfortable owning a project alone from database to interface, or delivering within a team.

WORK EXPERIENCE

Software Engineer

Robonex

04/2026 – Present

DHA Rahbar, Lahore (on-site)

- Delivered five client products across web, mobile and desktop in six months, some built independently and others as part of a team.
- Build features end to end: React and React Native interfaces, Node.js, Express.js and PHP back ends, and MySQL, MongoDB and Firebase data layers.
- Developed desktop point-of-sale apps that run online and offline, used by retail and restaurant clients.
- Design and integrate REST APIs connecting websites, admin panels, mobile apps and desktop apps to a shared back end.
- Manage code with Git and GitHub and test APIs with Postman.
